Site RPM Paula Schmittiel

7/20 - All samples canceled before scheduling to be resubmitted as routine without PW MAs under CASC. Hardness removed from soil samples.

Shipping period end date updated to 9.8, as 9/7 is a federal holiday.

8/4 - samples added by Region. Please note that these samples have not started shipping to TAB yet. The Region plans to ship on one day during the shipping period and would prefer to keep samples at one laboratory but understands if they need to be split between two. If the samples need to be split, the Region requests sending soils to one laboratory and water to the other.
